## **DETAILED ACTION**

## Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-62 and 66, drawn to a building structure.

Group II, claim(s) 63-65, drawn to a method of building a building structure.

The inventions listed as Groups I and Group II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the rails attached to the support module to join structural parts and the guide rail is not necessary machinery to put the building structure together. Moreover the machinery disclosed in the instant application can be used to put together some other building structure or mechanical structure that is not a building and that has different structural elements. The machinery disclosed in the instant application used in putting together elements of the building structure is not a part of the building structure.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chapman E Jeanette whose telephone number is 703-308-1310. The examiner can normally be reached on Mon.-Fri, 8:30-6:00, every other fri, off.
